

COOKERYAKI JUICE VENDING MACHINE SPECS SHEET

Item Model	COOKERYAKI Shopping Mall-IV Pro Orange Juice Vending Machine
The characteristics of the model	<p>1) The newest COOKERYAKI shoppingmall-4 pro model is the crystallization of COOKERYAKI company's 7 years of technical accumulation, representing the highest level of technology in the industry, and the equipment is particularly stable and reliable.</p> <p>2) It integrates a "smart cleaning" system (only for Cover-lid type). All the juice parts are automatically cleaned to under program control. This reduces the frequency of replacing the juicer parts, greatly reducing the daily maintenance workload, improving operation efficiency.</p> <p>3) The garbage system is completely closed. Open the door of the cabinet and do not see any garbage. It is clean and tidy and meets the relevant regulations of the US NSF on food and beverage vending machines.</p> <p>4) The average time of the 3 cups of juice produced by the COOKERYAKI shoppingmall-4 pro model is only 100~120s, which meets the requirements for rapid production.</p>
